

CI395W Inlet

Light changes from Green to Amber

CI395W White Electrified, ElectraValve[®] Inlet with Status Indicating Light

NuTone's CI395 Series Electra Valve[®] Direct Connect Inlet with status indicating light offers both the convenience of directly plugging into standard household 120vac without the need for an extension cord along with the handy check and change bag reminder provided by the status indicating light. Built-in low voltage terminals allow the system to be turned on using a switched hose. Break-resistant cover closes and seals when hose is removed.

FEATURES:

- To be used with all Advantage Series Power Units & CH615 or CH620 hoses
- Status indicating light uses existing Low Voltage lead wires. No additional wires are needed

- White
